

## Tasks

- ↳ Go online to find accessibility features to built into w
- ↳ find out why this what impact it can have

feelings

- embarrassed that he doesn't understand how accessible accessibility
- overwhelmed with the amount there is to learn.
- frustrated, when accessibility content is not presented in an understandable way

## Overall Goal

- a site where the is easy to read understand.
- ↳ a site that helps h a better understan of what truly a focused on t rives at the

cat important  
they need  
abilities

is important,  
we for adjacent people  
pain points

- ↳ Lots of jargon that he finds overwhelming with all the other learning he has to do.
- ↳ all with regard to the validations he has to do on his code. He, he doesn't just want more checklists,

☞ at the moment accessibility is a place he doesn't understand why it's certain things like alt text are important.

↳ it find accessibility sites, Googling.
